Second Year B Tech CSE-IT Student at NIAT Mangaluru *with hands-on experience in full stack web development, AI/ML and Automation. Built real world projects including a vector search engine, an AI Image generator and Sangeetha a Music and karaoke app.* ***Seeking opportunities to apply and grow my skills in software*** **development**

EDUCATION

B Tech CSE-IT 2025 – 2029
Nxtwave Of Innovations In Advanced Technologies. Mangaluru

12th 2023 – 2025
B Lingaiah Residential Pre University College Sirigere. Chithradurga-Sirigere

10th 2022 – 2023
Sri Taralabalu English Medium High School Mellekatte Davanagere-Mellekate

SKILLS

Frontend Development

HTML/CSS & Javascript
HTML and Tailwind CSS and Bootstrap for styling

React
Web apps, Authentication, Routing, Fetching APIs

Generative AI
Prompting for High quality AI Images and AI videos. Landing Pages in websites, Prompting Techniques.

SOFT Skills
Communication, Critical thinking

Backend Development

SQL and MongoDB
Advanced Queries with SQL, Modern Database and Joining Tables, ER-Models, Transactions and Complex Queries with MongoDB.

Python
Basics and OOP Concepts, Basic REST APIs , Basic Flask APIs.

AI Automation
By using n8n automation platform, Gmail automation, LinkedIn job searching. Automated song generation, Podcast Generation with AI voice.

PROJECTS

Vector Search
I Built a Vector Searching project for "One lakh Amazon Products Reviews" Dataset to check the "Meaning and Sentiment" of each Reviews. I have Received a Certificate from Official NIAT Masterclasses.

Image Generation With Gradio
I Built an Image Generation app with Gradio in Kaggle platform to generate images for "15 Flipkart products" in loop in HD quality. I got an 63rd rank in that Competition and I have Received a certificate from Official NIAT Masterclasses.

Sangeetha
Built a full stack music and karaoke app using React Native and Firebase, MongoDB, with Cloud Functions for automated welcome emails, audio hosting via Firebase Storage. Click Here
